21st July, 1924

Messrs. Joseph and Joseph,  
Francis Bldg.,  
Louisville, Ky.

Dear Sirs:

We beg to acknowledge your letters of the 16th and 18th regarding the Morehead Normal School. We apologize for not answering your first letter before, but we have been expecting every minute to get some decision from the President regarding some adjustments in property lines which we have urgently recommended.

As a matter of fact our studies of the whole layout proposition have been held up pending a decision by the Board of Regents regarding additional land. The boundary changes we suggested had an important bearing on the building locations.

But no decision has been sent to us regarding these matters. In view of the need for haste in connection with your plans we are taking the liberty of sending you under separate cover one of our preliminary studies, #7304-5, showing a suggested grouping of buildings and open spaces on the land now available. We have given this matter a good deal of thought and believe that a grouping of this sort is promising. The plan, however, has not yet been submitted to the Board of Regents, but we are sending them a copy today for their information.

To help us in completing our general layout plan we should appreciate it if you will send us prints of the building plans when they have been worked out.

Very truly yours,

Under sep. cover  
plan #730465
